

NERCCS2026

Northeast Regional Conference on Complex Systems (NERCCS 2026)

Program Booklet

Location: *Goergen Hall, University of Rochester, 275 Hutchison Rd, Rochester, NY 14620*

Dates: *March 11–13, 2026*

Day 1 (March 11, 2026)

Registration	12:00 - 4:00
Coffee Munnerlyn Atrium	12:00

Opening Remarks	1:00 - 1:30
------------------------	--------------------

Sloan Auditorium (Goergen 101)

Keynote	1:30-2:30
----------------	------------------

Sloan Auditorium

Life Exists Beyond Biochemistry: Making Abiotic (Biochemistry-free) Life in the Computer and the Test-tube

Juan Perez-Mercader (Harvard University)

Break	2:30 - 2:45
--------------	-------------

Parallel Sessions 1	2:45 - 3:45
----------------------------	--------------------

Sloan Auditorium (Goergen 101): Network Control, Measurement, and Bias

Session Chair: Sadamori Kojaku, Binghamton University

2:45 Distributed Self-Control of Dynamical Networks by Adaptive Link Weight Adjustments
Hiroki Sayama (Binghamton University, SUNY)

- 3:05 Estimating Uncertainty in Network Measures and Structures Arising from Noisy Data**
 James Hartz (University at Buffalo, SUNY)

- 3:25 A Diagnostic Framework for Sampling-Induced Distortion in Network Metrics**
 Sriniwas Pandey (Binghamton University, SUNY)

Fantone Lecture Hall (Goergen 109): Adaptive Social Networks and Belief Dynamics

Session Chair: Damian Sowinski, University of Rochester

- 2:45 Bridging Simple and Complex Contagions in Belief Dynamics: A Voter Model Extension**
 João Franco (Vermont Complex Systems Institute, University of Vermont)

- 3:05 Identifying brain network features that drive opinion formation and changes in humans**
 Shweta Hatote (University at Buffalo, SUNY)

- 3:25 Why We Experience Society Differently: Intrinsic Dispositions as Drivers of Ideological Complexity in Adaptive Social Networks**
 Akshay Gangadhar (Binghamton University)

Break

3:45 - 4:00

Parallel Sessions 2

4:00 - 5:00

Sloan Auditorium (Goergen 101): Information, Entropy, and Behavioral Signals

Session Chair: Georgi Yordanov Georgiev, Assumption University & Worcester Polytechnic Institute

- 4:00 On the Uniqueness of the Coupled Entropy and its Applications**
 Kenric P Nelson (Photrek, Inc)

- 4:20 A Network Perspective of the Stock Market Using Mutual Information and Transfer Entropy**
 Shangyi Bi (Binghamton University, SUNY)

- 4:40 Detecting Dynamic “Fingerprints” in Human Random Keystrokes**
 Jacqueline Blake (Binghamton University, SUNY)

Fantone Lecture Hall (Goergen 109): Media, Platforms, and Field Mapping

Session Chair: Damian Sowinski, University of Rochester

- 4:00 How News Connects: Mapping the Semantic Topology of a Digital Newspaper**
 Sofia Sciangula (Carlo Cattaneo University LIUC)
Remote

- 4:20 Tempo-Dependent Emergence in Platform-Mediated Collective Behavior**
 Shaunette T. Ferguson (Barnard College, Columbia University)

- 4:40 Interactive Visualization of the Updated Complex Systems Keyword Diagram**
 Hiroki Sayama (Binghamton University, SUNY)

Day 2 (March 12)

Continental Breakfast | Munnerlyn Atrium

8:00

Keynote **9:15-10:15**

Sloan Auditorium

Optimal Networks in Urban Transport Systems

Filippo Radicchi (Indiana University)

Break

10:15 - 10:30

Parallel Sessions 3 **10:30 - 11:30**

Sloan Auditorium (Goergen 101): Social / Institutional Simulation and Innovation Dynamics

Session Chair: Hiroki Sayama, Binghamton University

10:30 A Simulation Model for Historical Evolution of Geopolitical Entities

Andrea Agosta (Carlo Cattaneo University LIUC)

Remote

10:50 Using Agent Based Modeling to explore long-term economic impacts of nurse turnover in health-care

Kate J. O'Neill (Binghamton University, SUNY)

Remote

11:10 Uncovering simultaneous breakthroughs with a robust measure of disruptiveness

Sadamori Kojaku (Binghamton University, SUNY)

Fantone Lecture Hall (Goergen 109): Infrastructure, Risk, and Public/Health Networks

Session Chair: Damian Sowinski, University of Rochester

10:30 Graph-Based Analysis of Hurricane Stakeholder and Warning Networks: Structural Roles, Information Flow, and Optimization Diagnostics

Hayford Adjavor (Binghamton University, SUNY & CenterPoint Energy)

Remote

10:50 Inaccessibility in Public Transit Networks

Katherine Betz (University at Buffalo, SUNY)

11:10 Network-Driven Cohort Selection and Adverse Drug Reaction Detection in Epilepsy Social Media

Ziqi Guo (Binghamton University, SUNY)

Remote

Buffet Lunch**11:30 - 1:30***Munnerlyn Atrium*

Parallel Sessions 4**1:30 - 2:30**

Sloan Auditorium (Goergen 101): Graph Methods and Applied Dynamics

Session Chair: Georgi Yordanov Georgiev, Assumption University & Worcester Polytechnic Institute

1:30 distanceclosure: A Python Package for Network Sparsification Based on Its Topology

Robert Palermo (Binghamton University, SUNY)

1:50 The Effective Graph improves prediction of network dynamics in biochemical models

Xuan Wang (Binghamton University, SUNY & Indiana University)

2:10 Robust Video Anomaly Detection under Partial Observation via Patch-Motion Graph Smoothing

Neda Amirirad (Binghamton University, SUNY)

Fantone Lecture Hall (Goergen 109): Computational Models and Algorithm Diagnostics

Session Chair: Hiroki Sayama, Binghamton University

1:30 Diagnostic Evaluation of Conditional Generative Algorithms on Curated Single Cell Reference Data

Matthew Jehrio (University of Rochester)

1:50 Spark: Modular Spiking Neural Networks

Mario Franco (Binghamton University, SUNY)

2:10 Scalability of Structure-Preserving Simulations in Plasma Physics

Sarthak Sharma (University at Buffalo, SUNY)

Coffee Break | Munnerlyn Atrium

2:30 - 2:45

Keynote**2:45 - 3:45**

Sloan Auditorium

Title TBD

Adilson Motter (Northwestern University)

Break

3:45 - 4:00

Parallel Sessions 5**4:00 - 5:00**

Sloan Auditorium (Goergen 101): Self-Organization, Robustness, and Epidemic Coupling

Session Chair: TBD

4:00 A Feedback-Driven Lyapunov Principle for Self-Organization in Open Stochastic Systems

Georgi Yordanov Georgiev (Assumption University & Worcester Polytechnic Institute)

4:20 Canalization drives Robustness in the Evolution of Collective Intelligence under Noise

Srikanth Iyer (Binghamton University, SUNY)

4:40 A symbiotic SIR process

Gerardo Palafox-Castillo (Universidad Autonoma de Nuevo Leon)

*Remote***Fantone Lecture Hall (Goergen 109): Collapse, Inequality, and Sustainability Dynamics**

Session Chair: TBD

4:00 A Meta-Model of Endogenous Overcrowding-Driven Demographic Collapse

Federico Carucci (Carlo Cattaneo University LIUC)

*Remote***4:20 Parasites become rich and drive inequality in approach to collapse in a model of evolving networks**

Atiyab Zafar (University of Delhi)

4:40 Artificial Agents and Ecological Collapse: an LLM-enhanced Agent-Based Model of a Sustainability Game

Francesco Bertolotti (Carlo Cattaneo University LIUC)

*Remote***Day 3 (March 13)**

Continental Breakfast | Munnerlyn Atrium

8:00

Keynote**9:15 - 10:15***Sloan Auditorium***Complexity Across Scales of Space and time in the Brain**

Krishnan Padmanabhan (University of Rochester)

Parallel Sessions 6**10:30 - 11:30**

Sloan Auditorium (Goergen 101): LLM Learning, Optimization, and Alignment

Session Chair: Georgi Yordanov Georgiev, Assumption University & Worcester Polytechnic Institute

10:30 Prospect Learning in Large Language Models: Quantifying Risk Preferences and Adaptation Dynamics

Nency Dhameja (Binghamton University, SUNY)

Remote

10:50 Evolutionary System-Prompt Optimization for LLM Agents in Competitive Market Simulations

Ossama Zaroual (Carlo Cattaneo University LIUC)

Remote

11:10 Cooperation or Defection? The Decay of Alignment Instructions in Complex LLM Systems

Andrea Monoli (Carlo Cattaneo University LIUC)

Remote

Fantone Lecture Hall (Goergen 109): LLM Agents in Social Systems

Session Chair: Andreas Duus Pape, Binghamton University

10:30 Large Language Model Agents Partially Reproduce Real-World Segregation Patterns in the Schelling Model

Andreas Duus Pape (Binghamton University, SUNY)

10:50 Going for the Third: Cooperation between LLM Agents in a Three-Option Setting

Leonardo Mascagni (Carlo Cattaneo University LIUC)

Remote

Closing Remarks

11:50 - 12:00

Thank you to our Official Sponsors:

At-a-Glance Schedule

Day 1 — Wednesday, March 11

Time	Sloan Auditorium (Goergen 101)	Fantone Lecture Hall (Goergen 109)
12:00	<i>Registration (12:00–4:00) & Coffee (Munnerlyn Atrium)</i>	
1:00–1:30	<i>Opening Remarks</i>	
1:30–2:30	<i>Keynote: Juan Perez-Mercader (Harvard University)</i>	
2:30–2:45	<i>Break</i>	
2:45–3:45	Network Control, Measurement, and Bias	Adaptive Social Networks and Belief Dynamics
3:45–4:00	<i>Break</i>	
4:00–5:00	Information, Entropy, and Behavioral Signals	Media, Platforms, and Field Mapping

Day 2 — Thursday, March 12

Time	Sloan Auditorium (Goergen 101)	Fantone Lecture Hall (Goergen 109)
8:00	<i>Continental Breakfast (Munnerlyn Atrium)</i>	
9:15–10:15	<i>Keynote: Filippo Radicchi (Indiana University)</i>	
10:15–10:30	<i>Break</i>	
10:30–11:30	Social / Institutional Simulation and Innovation Dynamics	Infrastructure, Risk, and Public/Health Networks
11:30–1:30	<i>Buffet Lunch (Munnerlyn Atrium)</i>	
1:30–2:30	Graph Methods and Applied Dynamics	Computational Models and Algorithm Diagnostics
2:30–2:45	<i>Coffee Break (Munnerlyn Atrium)</i>	
2:45–3:45	<i>Keynote: Adilson Motter (Northwestern University)</i>	
3:45–4:00	<i>Break</i>	
4:00–5:00	Self-Organization, Robustness, and Epidemic Coupling	Collapse, Inequality, and Sustainability Dynamics

Day 3 — Friday, March 13

Time	Sloan Auditorium (Goergen 101)	Fantone Lecture Hall (Goergen 109)
8:00	<i>Continental Breakfast (Munnerlyn Atrium)</i>	
9:15–10:15	<i>Keynote: Krishnan Padmanabhan (University of Rochester)</i>	
10:30–11:30	LLM Learning, Optimization, and Alignment	LLM Agents in Social Systems
11:50–12:00	<i>Closing Remarks</i>
